In an open space

Against a wall/in an alcove

Side by side

SONUS

Mobile acoustic pods offer flexibility

If your office needs or layout change, SONUS can be relocated without disassembly.

SONUS

Why SONUS?

- Sleek modern design.
- A wide range of applications in different interiors.
- Ergonomics for employee well-being.

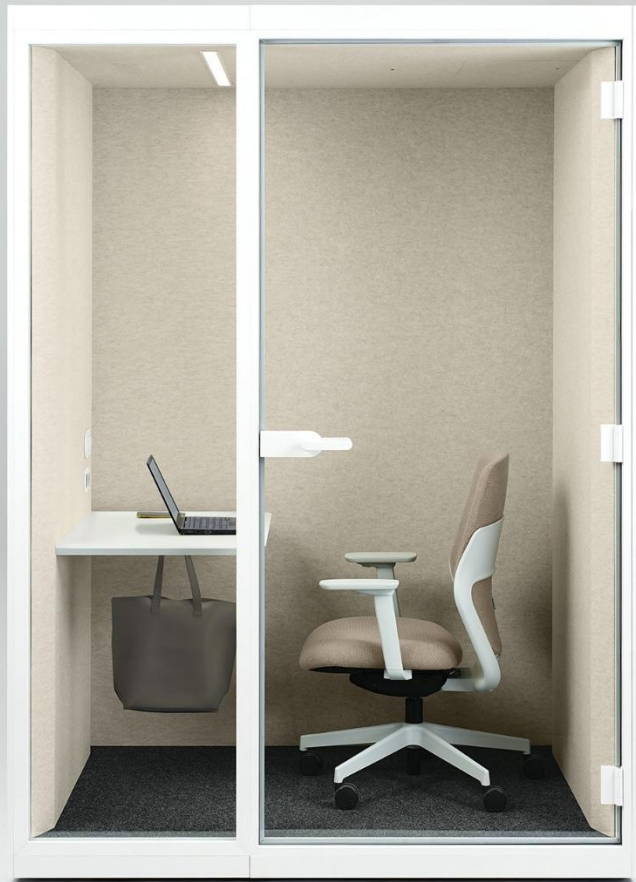

SONUS

Sleek modern design

SONUS acoustic pods perfectly reflect the NARBUTAS design philosophy of “Nothing Unnecessary”.

SONUS

Nothing Unnecessary – every detail meticulously considered

SONUS

Where comfort meets aesthetics

SONUS

A wide range of applications in different interiors

The SONUS silhouette integrates seamlessly into
various environments.

SONUS

The one you need

Create the combinations you desire – standing out, contrasting, or blending in seamlessly.

SONUS

Functional space zoning

The acoustic pod serves as a functional space divider without compromising visual lightness.

SONUS

SONUS

Invisible details that create a sense of comfort

The **quiet and efficient ventilation system** ensures your comfort, even during extended periods of work.

Effective lighting prevents eye strain and ensures a presentable appearance on camera.

System control – adjust your acoustic pod to your needs.

A **power socket with AC and USB fast charger type-A and type-C** connectors ensures that you can charge your devices at any time.

Implementing sustainability principles

Sustainability is one of NARBUTAS' long-term strategic directions. We are committed to ensuring the longevity and sustainability of our furniture.

SONUS

- Reliable and long-lasting.
- Produced using 100% green electricity.
- Produced from raw materials with a recycled content.

Main raw materials

Metal
